backslashit(string \$value): string

Adds backslashes before letters and before a number at the start of a string.

Parameters

\$valuestringrequired

Value to which backslashes will be added.

Return

stringString with backslashes inserted.

Source

wp-includes/formatting.php

Copy

```
function backslashit( $value ) {
    if ( isset( $value[0] ) && $value[0] >= '0' && $value[0] <= '9' ) {
        $value = '\\\\' . $value;
    }
    return addcslashes( $value, 'A..Za..z' );
}
```
